PROJECTS

E-commerce

Collaborated on a MERN e-commerce app with features like cart management, wishlists, search, and sorting. Employed MongoDB for data storage and designed scalable schemas. Set up RESTful APIs for seamless front-end and back-end communication.

Building Connections

I created a visually appealing website using ReactJS, Bootstrap, and a local API. It facilitates connections between users, mentors, and investors. Users can form teams through conversation and interact with mentors and investors easily.
